Information about your patient's insurance coverage, cost support options, and treatment support is given by service providers for TREMFYA withMe via Janssen CarePath. The information you get does not require you or your patient to use any Janssen product. Because the information we give you comes from outside sources, TREMFYA withMe cannot promise the information will be complete. TREMFYA withMe cost support is not for patients in the Johnson & Johnson Patient Assistance Foundation.

The patient support and resources provided by TREMFYA withMe are not intended to provide medical advice, replace a treatment plan from the patient's doctor or nurse, provide case management services, or serve as a reason to prescribe.

DELAY AND DENIAL SUPPORT

TREMFYA withMe offers eligible patients TREMFYA® (guselkumab) at no cost until their commercial insurance covers the medication. See program requirements below.

To be eligible, patient must have:

1. a TREMFYA® prescription for an on-label, FDA-approved indication
2. commercial insurance with biologics coverage
3. a delay of more than 5 business days or a denial of treatment from their insurance.

In addition, for patient to be eligible, Prescriber must submit:

4. a coverage determination form (ie, prior authorization or prior authorization with exception) to the commercial insurance. If coverage is denied, Prescriber must also submit a Letter of Formulary Exception, Letter of Medical Necessity, or appeal within 90 days of patient becoming eligible for patient to stay in the program.

Patient is not eligible if:

1. patient uses any state or federal government-funded healthcare program to cover medication costs. Examples of these programs are Medicare, Medicaid, TRICARE, Department of Defense, and Veterans Administration
2. prior authorization is denied due to missing information on coverage determination form, use for a non-FDA-approved indication, or invalid clinical rationale.

Patient is eligible until commercial insurance covers the medication. Program requires periodic verification of insurance coverage status to confirm continued eligibility.

Delay and Denial Support covers the cost of therapy only—not associated administration cost. Prescriber cannot bill commercial insurance plan for any part of the prescribed subcutaneous treatment. Patient cannot submit the value of the free product as a claim for payment to any health plan. Program good only in the United States and its territories. Void where prohibited, taxed, or limited by law. Program terms may change.

JANSSEN PATIENT ASSISTANCE PROGRAM

Your patient may be eligible to receive their Janssen medication(s) free of charge for up to one year if they have been prescribed a Janssen medication, have a financial hardship, and are currently enrolled in government, commercial, or employer group health insurance.

Your patient must meet the eligibility and income requirements to qualify for the patient assistance program.

Your patient is not eligible for free Janssen medication if their health insurance will cover the cost of their Janssen-prescribed medication if this application is denied. Some employers, insurers, and other companies force patients to apply for medically necessary medications from free product programs instead of covering such medications directly and immediately through insurance, which could lead to delays in care and discriminate against lower-income patients. These types of "Assistance Diversion Programs" are generally established by companies that profit by diverting resources away from patients in need. An Assistance Diversion Program is any insurer, employer, or third-party program that withholds coverage or payment for Patient's medically necessary drug until Patient has completed an application for free product assistance. Assistance Diversion Programs are prohibited by Janssen to make sure that help is available for patients with no safety net in place. Your patient's insurer must submit a Patient Eligibility Certification form to confirm that their drug coverage is not subject to an Assistance Diversion Program.

Your patient may not seek payment for the value of Janssen medications received from this program from any health plan, patient assistance foundation, flexible spending account, or healthcare savings account.

Before your patient enrolls in the patient assistance program, it is important they understand that they will be asked to provide personal information that may include their name, address, phone number, email address, financial information, and information related to their prescription medication insurance and treatment. This information will be used by Janssen Biotech, Inc., and its service providers to determine their eligibility for, enroll them in, and administer the program. The information will also be used to learn more about the people who use the program, to improve the program, and will be shared with service providers supporting the program.

If your patient has Medicare Prescription Drug Coverage (Part D) they may be asked to attest to or submit a report from their pharmacy or an Explanation of Benefits (EOB) statement from their insurer that shows their out-of-pocket costs for the current year. To qualify for the program, 4% of the patient's gross annual household income must be spent on out-of-pocket prescription expenses for the patient and/or other members of their household.

This program offer may not be used with any other coupon, discount, prescription savings card, free trial, or other offer. Offer good only in the United States and its territories. Void where prohibited, taxed, or limited by law. Program terms will expire at the end of each calendar year and may change or end without notice, including in specific states.

Your patient may end their participation in the program at any time by calling 844-4withMe (844-494-8463), Monday through Friday, 8:00 AM to 8:00 PM ET.
