

SUPPORTING YOUR PATIENTS during COVID-19 (coronavirus)

We're incredibly grateful for the work you are doing during this difficult time and we're committed to supporting you, your community, and your patients through the unprecedented challenge of COVID-19. Janssen is here to help with a variety of virtual resources to answer questions regarding cost and coverage of Janssen products.

For more information about Johnson & Johnson's response to the COVID-19 outbreak, please click [here](#).

Janssen CarePath continues to offer programs supporting patients with different needs:

- For eligible commercially-insured patients starting or continuing on certain Janssen medicines, programs that help patients lower their out-of-pocket costs
- For patients who have lost their jobs and insurance coverage, Janssen CarePath can provide a referral to independent foundations that offer free medicines
- For new patients starting on most Janssen medicines, free trial product programs

As always, Janssen CarePath Care Coordinators can answer questions about insurance and out-of-pocket costs, as well as help locate sites of care for certain medicines.

Janssen CarePath remains fully prepared to meet additional patient needs brought on by the current economic situation and Janssen CarePath is the first place patients should go to learn about their options for support.

Patient Support Options for Commercially Insured Patients

Janssen CarePath Savings Program*

If your patient has commercial insurance and insurance coverage for a Janssen product is approved

- Eligible patients pay \$5 per dose for medication costs
- \$20,000 maximum program benefit per calendar year
- See full eligibility requirements for [TREMFYA®](#) (guselkumab) or [STELARA®](#) (ustekinumab)
- Check eligibility and enroll your patients by clicking [here](#)

Janssen Link*

Support for patients prescribed [TREMFYA®](#) or subcutaneous [STELARA®](#)

If your patient's commercial insurance coverage is delayed (>5 business days) or denied

- They can receive [TREMFYA®](#) or subcutaneous [STELARA®](#) at no cost until they receive insurance coverage approval
- See full program requirements for [TREMFYA®](#) and [STELARA®](#)

*Both the Janssen CarePath Savings Program and the Janssen Link program are unavailable to individuals who use any state or federal government-funded healthcare program to cover a portion of medication costs, such as Medicare, Medicaid, TRICARE, Department of Defense, or Veterans Administration. These programs are for medication only. Terms expire at the end of each program year and may change.

Patients Insured Through Medicare

If your patient is enrolled in Medicare and is using Medicare coverage to pay for their medication, our [Medicare Resource Guide](#) provides information on sources for cost support that may be available.

In addition, patients may be eligible for the Extra Help program provided by the Social Security Administration. Learn more [here](#).

Patients Insured Through Medicaid

Patients can find out more about Medicaid benefits in their state, including whether they may be eligible for Medicaid by clicking [here](#).

Patients Who Are Not Insured

Janssen CarePath can provide information about independent resources that may be able to help with patient out-of-pocket medication costs. Click [here](#) to learn more.

Janssen Prescription Assistance

Visit [JanssenPrescriptionAssistance.com](#) for more information about affordability programs that may be available.

Please see full Prescribing Information and Medication Guide for [TREMFYA®](#) (guselkumab) and [STELARA®](#) (ustekinumab). Provide the appropriate Medication Guide to your patients and encourage discussion.
